About the RDS

The RDS is a social impact organisation founded nearly 300 years ago.

We are an all island organisation which inspires and empowers positive change in Irish society.

This is achieved by delivering programmes, bursaries and activities through the RDS Foundation.

The Dublin Horse Show now in its 149th year is run and managed by the RDS directly as part of the RDS Foundation Programme.

The mission of the Dublin Horse Show is to support the Irish sport horse breeders and producers by showcasing the very best in Irish bred horses and developing a marketplace for them. Whilst also widening the understanding of the positive social impact that horses have on society.
